

BOW ISLAND REVIEW.

VOL. 1. NO. 13.

BOW ISLAND, ALBERTA, SATURDAY, SEPTEMBER 17, 1910.

SUBSCRIPTION \$1.50 A YEAR

COLP'S HARDWARE

R. E. A. COLP, Proprietor

We wish to call your attention this week to our **HEATING & LIGHTING DEVICES**. They are the best that inventive ingenuity and manufacturing skill can produce. No time or expense has been spared in embodying in them every possible improvement.

THE RAYO LAMP

Is a well-constructed, handsome, centre draught lamp of unusual light-producing power, made of brass and beautifully nickel-plated. An ornament anywhere.

COLONIAL SMOKELESS OIL HEATER

Is acknowledged to be the only oil heater that really is perfect. It is a home comfort and always satisfies its purchaser.

THE TILDEN GURNEY HEATER

A full line just received.

Let us give you our prices and we will guarantee all our goods to be just as we represent.

If you live out of town, Write us.

BOW ISLAND - - - ALBERTA

All that you need, we have!

Lumber, Lath, Shingles, Rubbersoid, Roofing, Plaster, Cement, Sash and Doors, Brick and Lime, etc.

EVERYTHING IN THE BUILDING LINE

Call and let us figure with you. Best grades at prices as low as the lowest.

PIONEER LUMBER CO.

A. F. DULMAGE, Manager.

Bow Island - - - Alta.

Coal! Coal!

We have made arrangements to have a constant supply of domestic coal on hand, and shall be pleased to receive your order for same. ORDER EARLY.

Beattie & Bratton

LIVERY, FEED AND SALE STABLE.

We Sell Hay, Oats, Shorts, Chop and Bran.

DRAY LINE IN CONNECTION.

REMEMBER!

That John Deere Dies have six bearings, as against only four on other makes. They will naturally give you better satisfaction and prove more durable than any other.

ALSO TAKE NOTICE That I have sold a large quantity of New Deere Wagons, and have absolutely no complaint whatever on them. On the contrary, I will surely sell the same people the same New Deere when they buy again. The price is far lower than any other on the market, and the wagon is guaranteed in every respect. Ask your neighbor if my word is good. Selecting your patronage.

A. Swennumson

TIME TO START FALL PLOUGHING.

There are few farmers in the west today who have not learnt a much needed lesson by the drought which prevailed this summer throughout the country. In the years of prosperity one is apt to get careless and think that after all there is really nothing in scientific farming, because the slipshod farmers obtains almost as good returns from his poorly cultivated field as the live, energetic man who adopts the latest and the best methods of cultivation. This summer, however, was one which showed clearly the benefits to be derived from proper methods of farming, as from all parts of the west the same tale is told, namely, "that on summer fallow and well-cultivated fields splendid returns have been obtained, but the yield from the district has been lowered on account of the small yields of the lazy and inexperienced farmer."

Three weeks ago a cry to the effect that no fall ploughing could be done on account of the dry condition of the ground was heard from all sides. Today, however, there is no cause for this. The heavy rains which have fallen over the entire country during the last two weeks, while they may have delayed harvesting to some extent, have been of untold benefit in adding to the ground enough moisture to enable the plough to pass through. The value of early fall ploughing is that it not only saves soil moisture, but enables the farmer to use other soluble salts to dress in sufficient quantity for the next season. Another important point is that it aids the germination of weed seeds which are killed by the frost before they have reached any appreciable growth. With the land in the condition that it is at present an effort should be made by all to get as much ploughed up as possible. Six or seven inches of soil deep enough, and it would pay many a farmer to take his team away from the threshing gang and start plowing his fields. While he will appear to be losing a little time at the present time, he will nevertheless make the money many times over by the other side of an increased crop yield. Besides having the satisfaction of having a cleaner and easier worked field. Fall ploughing is a good investment and one which all should indulge in.

REVENUE INCREASES.

The statement of Dominion revenue and expenditure for August and for the first five months of the current fiscal year shows that the promise of a "vaster surplus than has been," is being slowly borne out. The total revenue for August was \$10,774,690, and for the five months \$45,280,569; income, respectively, of \$1,765,682 and \$7,289,239.

If the same rate of increase is maintained for the balance of the year, this year's revenue will reach \$121,000,000 or nearly eighteen millions more than last year.

Expenditure on the other hand shows comparatively little increase. For the five months the expenditure on the consolidated fund account was \$27,543,097, or \$1,192,808 more than for the same period of last year, and \$18,281,533 less than the revenue. Expenditures on capital account for the five months totalled \$9,101,429, an increase of \$84,786, as compared with the corresponding period of last year. The net debt of the Dominion at the end of the month was \$227,345,732, a decrease during the month of \$1,270,155.

HOUSE MEETS NOV. 3.

The bye-elections in Glenoch and Macleod have been set for Monday, October 1.

W. W. Brown, of Strathmore, has been appointed returning officer for Glenoch, and Joseph Spenson has been appointed returning officer for Macleod.

The Provincial legislature has been summoned to meet in Edmonton on Thursday, November 3.

The Royal Commission to investigate the A. & G. W. transaction will complete its reports by that time and it will be placed before the House without previous publication.

Premier Brown will speak in Macleod on Friday night. He will be accompanied by Mr. A. Buchanan of Lethbridge.

To Rent.

One good 1/2 section of land, one and a half miles out of town, all fenced, house and stable, and abundance of fresh water and feed. Inquires in copy mail will spend half day. Also one team of horses for sale cheap. Enquire at Review Office.

THE CONSERVATION OF NATURAL RESOURCES.

The general public is confronted at every turn with some indication of popular feeling towards the advantages to be derived not only in the immediate future but in generations to come, by the great full guarding of the natural wealth which nature has spread so lavishly over the world. Governments are spending large sums of money to insure mineral and timber resources for the future.

A little problem in arithmetic might throw considerable light on the value of the work of dealing with prospective criminal during their days of childhood. The average working man has an earning capacity of \$800 per year. He gives to the world 20 years of service, which means that he accumulates in a life time the sum of \$16,000. The man of a little higher grade with a little more education is worth at least \$1,000 a year to the state. His term of working capacity is 25 years which means that he adds \$25,000 to the assets of the world in his life time. It is estimated that it costs \$100,000 to convict and take care of an habitual criminal in a life of 20 years of crime. This means that the state has lost the value of the man's labor to the extent of \$25,000. The habitual criminal is a man whose mental makeup is capable, as a rule, of taking a fair standing in matters requiring education. The state not only loses the producing capacity but invests \$100,000 to prevent him from doing harm to and destroying the property of all law-abiding individuals.

The cost of saving a child to citizenship in many cases does not exceed the sum of five or ten dollars. This includes the locating of the child to a foster home and his removal from the conditions of cruelty or neglect where, in an individual grow up to be a criminal or an individual with a non-producing capacity. Children in foster homes are so placed that they must of necessity follow the example in that environment.

The money saving to the state is *not* to be measured by the state is *not* to be measured by a government's thought. A great deal of capital is given the man who evolves a system or a scheme whereby by \$100,000 worth of lumber or mineral resources are saved for the state. The children of the nation are as a rule looked upon as a commodity without commercial value, and the tendency is to leave them in conditions of neglect and abuse until such time as they have reached the place where they have become so saturated in crime and delinquency that it is impossible to rescue them, or until such time as they have reached an earning capacity, when they are overworked and propitiated to the place of rebellion and revolt.

A child placed in normal home conditions, will as a rule find example and precedent guiding it naturally and without force into the channels of duty which are bound to result in its becoming a normal citizen with normal views of life and its requirements.

The Children's Aid Society is conserving the wealth of the nation in guarding the interests of the child, and is building up hundreds of thousands of dollars of producing capacity for which it deserves unlimited credit and your hearty support.

LOOKS GOOD FOR BOW ISLAND.

The annual report of the C.P.R. which has just been issued in pamphlet form, contains among a mass of other information the fact that no less a sum than eight and one half million dollars will be spent on the eastern end of their irrigation ditch. This vast expenditure will mean a big rise in values in the land north of the river, and will bring an immense tract of country under cultivation.

With the big projects of both the C.P.R. and the Southern Alberta Land Co. in active progress this district will certainly know within a very short time what a real boom means.

The above expenditure of eight and one half millions will be spread over four years and will put into work for almost every homesteader and team in this country.

Never send away for goods that you can get as cheaply and of as fine a quality in Bow Island. This applies as well to printing as anything else. We have an up-to-date plant, furnished with the latest series of type, and our prices—well, just ask us. But keep in mind the fact that the more dollars you spend in your home town the more there will be in circulation.

CHURCH SERVICES.

Church of England—Service in the Hotel Myrtle on Sunday next at 7:30 p.m.—Burdett, St. Albans, at 9 p.m. Notices of baptisms, marriages, etc. to be sent to P.O. Box 63, Bow Island.—H. M. Henderson, Priest in Charge.

Doomed to Suffering

RESCUED BY "FIRM-ATIVES"

SOME Federal officers in the Civil War were thought of as "firm-atives" for the night in an old tumble-down hut. About two o'clock the night was over. The pressure in its own peculiar way. A man came out and looked at the man. The others were all sleeping peacefully.

ORD TOWNSEND, the battle of the battles, was standing quiet near a drummer boy whose brass was dashed out by a cannon ball. His leadership gained on the horrible spectacle of some moments in silence. At last an old officer spoke up and said: "Why in your leadership surprised? Such things must happen in war." "I know it," was the reply: "but what stimulates me is a boy with such much brains should be here at all."

CHARLES BARNETT, Esq., 1903. "I suffered terribly from Biliousness and Dyspepsia for fifteen years, was treated by physicians and took many remedies but got no relief. Then I took 'Firm-atives', and this medicine completely cured me when everything else failed. To all sufferers from Indigestion, Biliousness and Constipation, I strongly advise them to try 'Firm-atives'." Charles Barnett, Esq., Box 107, 6 to 10—on or trial box. At all dealers or from Frank's Dispensary, Limited, Ottawa.

NOVEL CURVE FOR STOUTNESS

CENTRAL Washington is highly amused at a story that the expense of a man's suit is a novel curve for stoutness. The victim of the expense of a suit is Mr. P. C. Hesterman, a very wealthy Washingtonian. Mr. Hesterman weighs 225 pounds, and was getting fatter. His doctor prescribed work for him. The chairman got the job, after some difficulty, as a bear inspection at \$1,000 a year. When he assumed his duties he found that they, chiefly, consisted in sampling beer. He kept the work for a week, but when he actually found he was putting on more flesh he gave it up, and begged his friends to find a doctor what kind of work he had performed.

For many years, the report presented to the Union Merchant, which was the Belfast stated that the United States had been long going to the United States export market. The United States had been long going to the United States export market. The United States had been long going to the United States export market.

They Soothe Battered Nerves—Nerve diseases are usually attributable to defective digestion, as the stomach dominates the nerve centres. A course of Farmer's Vegetable Pills will rid the system of all disturbances of this character, and by restoring the stomach to normal, will relieve the nerves from irritation. There is no sedative like this food in the correction of irregularities of the digestive process, no preparation has done so effective work, as this food, fed by thousands.

VOL. 1 WEEKLY EDITION No. 40

SIR WILFRID, the TARIFF and THE BUCK-EYE

SIR WILFRID. The gentlemen at the back of the hall has asked me to make a few remarks. I should be very pleased to answer the questions of the audience. I should be very pleased to answer the questions of the audience. I should be very pleased to answer the questions of the audience.

P.S.—Not only Sir Wilfrid, but every visitor to the West cannot but notice the remarkable popularity of the BUCK-EYE, the best ten-cent cigar on sale to-day.

YOU MISS THIS!

And you miss the finest opportunity you will have for some time of securing your fall goods at Bargain Prices. Owing to the increase in cost of production of various articles the following winter will undoubtedly see many commodities advance in price, and we would strongly urge you to buy your present and future necessities as early as possible.

OUR REPUTATION

In Bow Island and surrounding district is such that we need not speak to you about the quality of our goods. We are here to stay, and whether it be this fall or a year hence you will find us not only willing, but eager, to back our guarantee to the limit.

Our Fall Goods

Are now arriving, and from every line of Groceries you can purchase with the greatest confidence in their freshness and superior quality.

Dry Goods Department

In our Dry Goods Department we have an endless display, and here again we give you the choice of a really up-to-date stock of the latest styles and patterns.

Our Hardware Department

Is complete in every detail, and the prices we are able to offer you just now are exceptionally reasonable. A walk through this department will enable you to notice prices, and the result of your inspection will, we are confident, be entirely in our favor.

WE KNOW THEY CAN'T BE BEATEN

Our Furniture Department

Has just received a large addition of an entirely new line of Household Articles, every one of which is modern, extremely tasty, and at the prices we quote them will appeal to every householder.

BOW ISLAND TRADING CO

The Bow Island Review

A Town and Country Journal Devoted to the interests of Bow Island and Surrounding Districts.

Published at Bow Island every Saturday Morning.
Subscription Price \$1.50 Per Year in Advance.

W. P. Cotton

Publisher and Prop.

Eight and one half million dollars will be spent by the C.P.R. on irrigation work. Another net sum will be incurred by the Southern Alberta Land Co. upon the big lake which they are constructing north. The need for that bridge over the river is becoming greater every day, and now is the time for Bow Island to do something.

Ugh! Old timers, say an exchange, say that there is every indication of cold weather and they have many reasons for their theory. The bush rats are boring deep holes. Beavers are already beginning to dig out trees for their long sleep. Gophers have made for the underground. Squirrels and chipmunks have been unusually industrious all summer long. They say it will be the coldest winter for years and there appears to be harmony among the old timers in this opinion.

Pro Bono Publico. When a new town is opened up the first organization to be formed is invariably a Board of Trade. The members generally comprise the business men of the town and such other energetic members of the community as they can induce to join. In most cases, however, and we are not speaking of Bow Island in particular, the work falls upon one or two and the others content themselves with maintaining a passive interest in the work that is being carried on. This is not right, nor is it just. A Board of Trade is essentially a business man's organization, and is formed to create a greater interest in, and to formulate reforms and create a better state of feeling in the particular community in which it has its being. In this good work all should take a more than passing interest, and by their active co-operation push the work along in a thoroughly business-like and systematic manner. One or two have not the same moral influence that a full board composed of all the representative business men would have, and when not supported loyally and energetically by their fellow-townsmen interest slackens and the Board of Trade becomes practically a nonentity. Bow Island at present is in that stage of its existence when it requires a pushful and enterprising body of men to take advantage of the many attractions and opportunities it undoubtedly possesses, and by combining them and the enormous flow of self-interest take up the work of progress and prepare for a time not far distant when Bow Island will be a very important point in Southern Alberta. Capital is bound to be introduced here, and with it will come a greater development of our coal mines, and a consequent greater production, brickyards will be opened, spurs built and hundreds of men employed. "Old Glory" will then be called upon, and the enormous flow of natural gas that is stored therein, will doubt it not, be taken full advantage of by manufacturers. And the time to prepare for this great era of prosperity is right now.

Local Topics.

Dan Needham celebrated his 44th birthday on Wednesday.

Mr. and Mrs. Jas. Hurd and baby spent Sunday at Petroleum Farm.

A. Bisset, of Winnifred, paid the "Review" a friendly visit on Wednesday.

G. Porter, of Grassy Lake stopped off here Tuesday whilst en route to Winnifred.

Mr. and Mrs. P. Kilgourd left on Monday for Valley City, N. D., upon a business trip.

Geo. Sheard of the Hotel Myrtle left Saturday on a week's visit to his brother at Fernie, B.C.

H. E. Battie has been appointed by the provincial government a stock inspector for Bow Island.

Mrs. K. G. MacAlpine was in town on Saturday. Glad to see her looking so well again after her operation.

The new house which J. Olquist has just completed south of the track has been rented by E. B. Loucks for the winter.

Lee Staveloy of the Diamond X ranch, Chin Coulee, and Ben Whitney were visitors to Medicine Hat, Saturday last.

Our station agent, K. G. McAlpine, is receiving a visit from his father, Dr. R. S. McAlpine of Petrolia, Ont., this week.

Mr. and Mrs. B. Whitney's son, Thompson, left on Saturday last to commence term at Trinity College, Port Hope, Ont.

J. D. Casley, who was called home to Brookings, S.D. by the serious illness of his father, returned to Bow Island the end of last week. His father died just before he reached home, death resulting from a serious injury caused by a heavy wagon loaded with cinders running over him.

J. Olquist has just completed backseting 30 acres, and is now engaged in ploughing 100 more, discing and rolling it as fast as it is ploughed.

Miss Baker left on the noon train for Tiber on Wednesday, a message received by her in the morning acquainting her of the death of her sister's child.

Geo. Herber has secured the contract for hauling the lumber for a large house which H. Harris is erecting across Bow River near the McGregor cow camp.

Messrs. E. C. Ludtke, W. S. Donnelly and Serg. Harper were passengers on the westbound Wednesday, the two former being en route for Lethbridge and the Serg. for Grassy Lake.

G. W. Johnston arrived back on Wednesday from a visit to N. Dakota accompanied by his daughter, Mrs. C. E. Sheldon, and her two children, who will probably stay here for the winter.

Vulcan and Ensign, two new townships on the C.P.R. Lethbridge-Aldersey branch, are to be sold this month. Vulcan is situated on section 5-17-24 west of 4th, and Ensign on section 31-17-25, west of 4th. Both sites belong exclusively to the C.P.R.

Notwithstanding the dry weather there are some excellent vegetables to be seen around Bow Island. Some potatoes we saw the other day that were grown by H. Arlaster were very fine specimens of their kind, and weighed from two and a quarter pounds downwards.

John McCartney's team which he had left for a few minutes standing outside his house on Monday night, suddenly bolted, and when passing through the gate wrenched off half the wagon box. The remaining half the team took them with it as far as W. Perry's place, nine miles north of town.

J. E. Murphy left on Thursday for N. Dakota.

A. Swenson paid a flying business trip to Lethbridge on Tuesday.

Sales of C.P.R. agricultural lands during the year aggregated 975,030 acres for \$14,465,361, being an average of \$18.81 per acre. Irrigated land brought \$20.50 per acre.

The following notices of cancellation have been placed in the post-office during September—Harold Alton Shepherd, Minneapolis, N.E. 1, 14-10-10; Ervin Ralph, Tiber, S.E. 1, 35-10-9; John Schell, Britton, S.D. N.E. 1, 24-10-10, all w. of l.

An excursion train bearing 200 settlers, all bound for points in northern Alberta, has arrived in the province. The train started from Montreal and was under the direction of L. H. Maillet, the publicity agent for the province at that point. The settlers will locate in Telford, Holden, St. Paul de Metis, Vegreville, Morinville, Vermillion and Edmonton. They are mostly French-Canadians but there is a sprinkling of Americans from the New England states.

We are requested by the Department of Agriculture to contradict the statement appearing in the Free Press (Winnipeg) to the effect that the shooting season for prairie chicken and partridges opens on Sept. 15th. This is incorrect, the open season being during the month of October only, during which time sportsmen are limited to 20 birds each per day, or 200 for the month, and in no case may any person allowed to buy or sell any of these birds at any time.

A. B. Houghlin returned on Saturday from a business trip to the coast and points south. He reports trade good at the coast, and at Portland, where he already has considerable business interests, he was so impressed with the immense volume of trade transacted there that he invested still further to the tune of about \$10,000 in ten acres of land adjacent to the city limits, and which he intends making a sub-division for residences and manufacturing houses.

WINNIFRED.

Mr. Hamch, of the Winnifred Township Co., was in town on business last Tuesday.

Mrs. Fisher, of the Fisher Mercantile Co., has a holiday trip to Bow Island last week.

Mr. Bergen has been on the sick list, and on Monday left for Medicine Hat for hospital treatment.

On Monday night Andy Lundquist's new house was the scene of a very enjoyable party, given in honor of E. McGregor and family, who were leaving the next day for Rose City, Minn., where they intend to reside permanently. The evening was a most pleasant one, the guests expressing their unbounded satisfaction at the good time they received at the hands of their host.

BOARD OF TRADE NEGOTIATE WITH C.P.R. FOR CROSSING.

For some time the residents of Winnifred have felt greatly the need for a crossing over the C.P.R. but until recently no steps have been taken to secure one. The newly-formed Board of Trade, however, with a view to having a crossing established on the main street which crosses the track between the water tank and the depot, Serg. Taylor, who took up the matter on behalf of the C.P.R., wrote stating that in his opinion it would be dangerous to have a crossing in where requested, and that it would necessitate removing the depot. He suggested a plan on the western side of the main street as a more suitable spot. The Board of Trade after consideration decided to write Serg. Taylor again, pointing out whether it would be possible for him to meet the Board at Winnifred and discuss the matter with them.
